EDUCATIONAL DEPARTMENT.

Fort St. George, March 31, 1886.

NOTIFICATION.

Higher Examination in Science, Art, and Industries.

No. 25.—With a view to give effect to the instructions of the Government of India, as contained in their resolution, $\frac{10}{30}$, of the 23rd October 1884, HIGHER EXAMINATIONS in various branches of TECHNICAL SCIENCE and ART and in INDUSTRIES will be held at such times and places as may hereafter be determined, and of which due notice will be given.

2. THE OBJECT of Government in instituting these examinations is to encourage advanced instruction in Science and Art, especially in those kinds of knowledge which bear upon the different branches of Industry now existing in this Presidency or suitable for it, and to furnish a means of testing wholly, or in part, the qualifications of persons desirous of becoming—

I. (*a*) Science, (*b*) Art, or (*c*) Technical } Teachers ; or
II. Mechanical engineers ; mechanical draughtsmen ; electrical engineers ; telegraphists ; builders ; designers ; engravers ; decorative or art workmen in any branch of artistic industry included in this notification ; or
III. Scientific agriculturists ; foresters ; veterinarians ; or
IV. Managers or foremen of manufacturing, printing and other industrial establishments suitable for this Presidency ; or
V. Employés in posts in the Revenue, Revenue Survey, Public Works, Education, Agriculture, Forest, Sanitation, Cattle Disease, Vaccination, or other departments which require a practical knowledge of any of the branches of science, art or industry in which it is proposed to examine, and for employment in which Government may, from time to time, see fit to recognise these examinations as a test ; or
VI. Employés in similar posts under District Boards and Municipal Councils, or under private employers.

3. THE KIND OF SCIENTIFIC INSTRUCTION that it is proposed to test, differs from that given in connection with the University examinations in this, that what is contemplated is not so much abstract science or science studied merely for the extension of knowledge and the enlargement of the mind, but science viewed in its application to various manufactures and industries. Similar remarks apply to the art examinations.

4. THE EXAMINATIONS shall be conducted by BOARDS OF PROFESSIONAL EXAMINERS appointed by the Commissioner for the Uncovenanted Civil Service Examinations, and shall be under the control and direction of that officer, to whose office all communications regarding the examinations should be addressed. The names of the members of each Board shall be notified beforehand in the *Fort St. George Gazette*.

5. THE EXAMINATIONS may, at the discretion of the Commissioner, be held at PLACES OTHER THAN MADRAS. Of such places, a list will be published in the *Fort St. George Gazette* annually in the month of June, and at such other times as the Commissioner may consider expedient.

6. APPLICATIONS FOR ADMISSION TO THE EXAMINATION must reach the office of the Commissioner

not less than two months before the examination, and must be on the printed forms to be obtained as hereinafter prescribed (paragraph 22). Each application must be accompanied by the district treasury officer's receipt for the fee, and by a certificate of the applicant's having passed the Middle School Examination or some examination accepted by the Commissioner as equivalent or higher.

7. The Fee shall be as follows:—

When only one subject is brought up, the fee (except as hereinafter provided) shall be Rs. 5 for the Preliminary Higher Examination and Rs. 8 for the Advanced Higher Examination; when two subjects are brought up at any one examination, it shall be Rs. 4 for each subject of the Preliminary Examination, and Rs. 6 for each subject of the Advanced Examination, and similarly the fee shall be Rs. 3 and Rs. 5, respectively, for each subject when three or more subjects are brought up at one examination. No deduction will be made when the additional subject is brought up in a succeeding year.

In those subjects in which the Examination is divided into stages the fees for examination for each stage shall be as follows:—Preliminary Examination, for each stage, Rs. 2. Advanced Examination, for each stage, Rs. 4. In subjects wherein for the present there is notified to be only one examination, the Preliminary Examination fee shall be charged.

8. Those who pass the examinations will receive Single Subject Certificates, Group Certificates, or Diplomas (see paragraphs 15, 16 and 17), and to some there will, under certain conditions, be given also Prizes and Rewards (see paragraphs 18 and 20), and Scholarships (see paragraph 19).

The Teachers of passed candidates will be eligible for Grants under the Grant-in-Aid Code (see Grant-in-Aid Code).

9. In connection with these examinations, Science Teachers, Lecturers and Demonstrators will, as opportunity serves and funds allow, be provided in every Government College, which will be provided also with Collections of Apparatus and Specimens, and with Laboratories. Encouragement will be given to all recognised colleges and high schools to make similar provision, and to District Boards and Municipalities to establish Demonstration-workshops and Farms in connection with the above teacherships and lectureships, so that theoretical instruction may be supplemented by practice.

10. Pending further notification there will be no advanced Higher Examination in the following subjects.—Mensuration; Plan-Drawing from Specification and Estimate-making; Earth-work, Road-work and Railway-work; Machine Construction; Mechanical Drawing; Steam and the Steam-Engine; Heat; Light; Metallurgy; Electrical Instrument-making; Electro-Metallurgy; Organic Chemistry; Mineralogy; Physiography; Animal Physiology; General Biology; Economic Entomology; Modelling; Wood and Copperplate Engraving and Etching; Photography; and Music. In each of the Industries, numbered in the list below (paragraph 12), from 41 (Printing) to 64 (Cookery), there will, for the present, be only one Higher Examination. In the other subjects, there will be two examinations, one the Preliminary Higher, and the other the Advanced Higher, Examination.

In Pure Mathematics the two Examinations are each divided into two stages, making altogether four examinations, in that subject.

In certain other subjects (see Syllabuses) the Preliminary Higher Examination is divided into two stages, which may be brought up separately. But no candidate shall be permitted to appear for the second stage until he has passed the first stage, or some examination accepted by the Commissioner as equivalent or higher. In some subjects (see Syllabuses) an option is allowed between two or more sub-divisions of the Syllabus, or of a part thereof.

The Examinations will be so arranged as to allow a diligent candidate of fair capacity to pass the Preliminary Higher Examination in from two to three years after his passing the Middle School Examination, and the Advanced Higher Examination in from two to three years after his passing the Preliminary Examination. Candidates shall not be required to appear in more than a single subject at the same Examination, except in so far as the rules of any institution in which they are studying may provide. Candidates will not, however, be restricted, as yet, to any definite time of preparation; and provided they have passed the Middle School Examination (or some examination accepted by the Commissioner as equivalent or higher), they will be at liberty to come up in any year for the Preliminary Higher Examination, except so far as the rules of the institution in which they are studying preclude. The same restriction applies to students of institutions sending up candidates for the Advanced Higher Examination as the final test of the course in such institutions. But every candidate allowed to present himself for the Advanced Higher Examination in any subject must have passed either the Preliminary Examination in that subject, and in any other subjects declared requisite, or some other examination accepted by the Commissioner as equivalent or higher, or have completed in a technical institution a course of study accepted by the Commissioner as equivalent.

Candidates may, at both the Preliminary and Advanced Higher Examinations, come up in more than one subject, either in the same or in following years, and may, after passing the Advanced Higher Examination, come up for the Preliminary Higher Examination in any subject other than those in which they have passed the advanced Examination.

Candidates who have passed in a lower class in any subject, may come up again to qualify for a higher class, on paying again the full examination fee prescribed in paragraph 7.

11. Students of Science will find it to their advantage to have, before coming up for the Preliminary Higher Examination, that amount of general education which is implied by passing the Matriculation Examination of the Madras or other Indian University, and similarly candidates for the advanced Higher Examinations in science should possess an amount of general education equal to that implied by passing the First Examination in Arts.

12. The separate Subjects in which Examinations will be held are, for the present, those in the following list, which, however, may be added to. Notice of any addition will be published in the *Fort St. George Gazette.*

Note 1.—Till further notice, no examinations will be held in those subjects whose names in the list are enclosed in square brackets [ ].

Note 2.—Advanced examinations will for the present be held in those subjects only whose names in the list are printed in Capitals.

Note 3.—For each subject, except those whose names in the list are enclosed in square brackets, there is published a syllabus of the knowledge required for the examinations, and such syllabuses are on sale at the Madras School Book Society's Depôt, Old College, Nungumbakam, Madras.

Candidates who have passed a first stage and have accordingly had their names published in the *Fort St. George Gazette*, must on applying for admission to the Examination for the second stage, cite the date and page of the Gazette in which their names appear, and their number in the list of successful candidates.

NOTICES TO MARINERS.

[No. 64.]

GULF OF ST. LAWRENCE.

PRINCE EDWARD ISLAND.

(1) EAST POINT—ALTERATION IN POSITION OF LIGHTHOUSE, ALTERATIONS IN LIGHT, AND ESTABLISHMENT OF FOG SIGNAL.

The Government of the Dominion of Canada has given Notice, dated 19th January 1886, that during the past season, the lighthouse and dwellings on East Point, Prince Edward island, were moved eastward from the positions they previously occupied a distance of about 533 yards :—

The light is, as heretofore, a *revolving* white light, attaining its greatest brilliancy *every three minutes ;* it is now visible between the bearings of S. E. by S., through west, and E. by N. ½ N. It is elevated 100 feet above high water, and should be seen in clear weather from a distance of 15 miles.

The lighthouse now stands within 67 yards of the eastern extreme, and 83 yards from the south shore, of East point. The appearance of the tower is unchanged, but it is more conspicuous than formerly, not being hidden by trees; the dwellings, painted white with brown roofs, are situated about 50 yards in rear of the lighthouse.

Position, lat. 46° 27′ 15″ N., long. 61° 58′ 5″ W.

Also, that during thick or foggy weather, a horn worked by compressed air (established at East point in October 1886), will give a blast of about *eight seconds* duration *every half minute.*

The fog signal building is painted white, with a brown roof, and stands 33 yards eastward of the lighthouse. These two buildings in line indicate nearly the outer extreme of East point reef.

(2) COVE HEAD OUTER LEADING LIGHT—ALTERATION IN COLOUR.

Also, that in the month of September 1885, the colour of the outer leading light at Cove head harbour, was changed from blue to *green.* In other respects the leading lights are unaltered.

NOTE.—As this harbour has only about 4 feet on the bar at low water, it is used only by fishing boats of light draught, and should not be approached when there is a strong breeze on-shore, as the sea then breaks completely across the entrance.

(*The bearings are Magnetic, and are given from seaward. Variation* 25¼° *Westerly in* 1886.)

BALTIC ENTRANCE—GREAT BELT.

(2) Romsö Island Light—Intended Alteration in Character.

The Danish Government has given Notice, that in the spring of 1886, the following alteration will be made in the character of the light exhibited on the east side of Romsö island, western shore of the Great Belt:—

The light will be a *triple flashing white* light (of the fourth order) *every twenty seconds*; giving a flash of *two seconds* duration, an eclipse of *one second*, a flash of *two seconds*, an eclipse of *one second*, a flash of *two seconds*, followed by an eclipse of *twelve seconds*. It will be elevated 53 feet above the sea, and should be visible in clear weather from a distance of 14 miles. Position, lat. 55° 30′ 40″ N., long. 10° 48′ 15″ E.

II. Tenders must specify the rate per gallon of the strength of 30° under proof which the tenderers are prepared to pay to Government for the privilege above described.

III. Each tender must be accompanied by a deposit of Rupees 500 in cash or currency notes and be enclosed in a cover superscribed with the words "Tenders for the exclusive privilege of manufacture and supply of country spirits in the Godavari and Kistna Districts." Each tender must be sent to the Collector of Kistna together with a sample of twelve quart-bottles of the spirits proposed to be supplied before 12 o'clock noon on the 30th of April 1886, after which no tender will be received.

IV. The tenders will be opened by the Collector in public on the 1st May 1886 at 12 o'clock noon. The final disposal of the tenders will rest with the Board of Revenue, to whom the Collector will forward, through the Commissioner of Salt and Abkári Revenue, all the tenders he receives. The Board will have full power to accept such tender as they may deem best for the public interests, or to reject all those received, without assigning any reasons.

V. The decision of the Board in each case will be announced on or before the 15th May 1886 and be communicated direct to the tenderers concerned, and the deposits of the unsuccessful tenderers, on application to the Collector, will then be returned to them.

VI. The person whose tender has been accepted shall, within one week after the Board's decision has been communicated to him, deposit a sum of Rs. 1,000 in Cash or Government Promissory Notes endorsed to the Collector, inclusive of the sum deposited with the tender, and, if he fails to do so, the Board's decision accepting the tender will be cancelled, the deposit already made will be forfeited, and the Board will come to a new decision on the tenders already received, or will otherwise dispose of the exclusive privilege at their discretion.

VII. When the full deposit of Rupees 1,000 as described above is made, the person whose tender and final deposit have been accepted shall execute an agreement binding the said person for himself, his heirs, successors and assigns to the conditions hereinafter set forth and hypothecating the Distillery buildings, machinery, implements, apparatus, stock of liquor, &c., as security for the payment of all sums which may become due to Government by way of duty, rents, penalties, fines, or other payments due under the provisions of the license to be granted to him, and, if he fails or refuses to sign

the agreement (a copy of which may be obtained from the Collector) within a week from completion of the deposits, the deposits already made will be forfeited and the exclusive privilege will be assigned otherwise as the Collector may determine.

VIII. As soon as the agreement has been executed, the Collector will issue a license assigning to the party whose tender has been accepted, and who has made the required deposits and executed the above agreement, the exclusive privilege described in the first clause of this notice, subject to the following conditions:—

CONDITIONS.

1. The licensee shall establish either a distillery or a depôt of excise at his option at Bezvada (Kistna District) in such buildings as shall be approved by the Collector of the District. The distillery or depôt shall be open at all times to inspection by the Collector or any subordinate whom he may depute for the purpose.

2. The licensee shall have the exclusive privilege—

Guntur.
Palnad.
Sattenapalle.
Vinukonda.
Narsaraopet.
Nandigama.
Bezvada.

(i) of manufacturing and supplying country spirits to licensed arrack vend farmers in the marginally-noted taluks of the Kistna District and to independent arrack shopkeepers in the Towns of Masulipatam, Bezvada, and Guntur; and

(ii) of supplying country spirits of the strengths of 20° and 30° under London proof to licensed renters in the remainder of the Kistna District and throughout the whole of the Godavari District (including the independent arrack shopkeepers in Rajahmundry and Ellore Towns).

3. The licensee shall so arrange his stills that their worms shall discharge into closed and locked receivers, to be provided by him and to be approved by the Collector, of such description that no spirits can be removed from them until they are unlocked. He shall also provide and maintain suitable and secure fastenings to all stills, spirit receivers, doors, &c., to the satisfaction of the Collector, for the attachment of locks to be provided by Government. The keys of all such locks will be retained by the Government Officer in charge of the Distillery or Depôt of Excise, but the licensee will be at liberty to affix his own locks also on all stills, receivers, doors, &c., on which Government locks are placed, provided that he shall always, on the requisition of the Collector or of the Officer in charge of the Distillery, immediately remove his locks so as to allow the free inspection of the stills and receivers on which, and of the rooms on the doors of which, they are placed and of all the contents thereof.

4. An account will be taken of the licensee's stock of spirits at such intervals, not being greater than three months, as the Collector may direct, and the licensee shall pay to Government duty at the rate of Rupees 4 per gallon of spirits of the strength of London proof, and proportionately for higher or lower strengths, for all spirits which may not be forthcoming, and for which he shall be unable to account to the satisfaction of the Collector in excess of an allowance of 2½ per cent. which will be made him for wastage.

5. No spirits shall be taken out of the Distillery or Depôt of Excise until they have been gauged and proved by the officer appointed for the purpose. No undistilled wash shall be removed from the Distillery under any circumstances whatever.

6. When spirits, on being brought up to be gauged and passed outwards for consumption, are found to be bad or unfit for consumption, the Collector may order them to be destroyed.

7. Spirits shall be issued under this license only to the licensed persons mentioned in condition 1 and shall be of the strengths of 20°, or of 30°, or of 60° under proof and of no other strengths.

8. The licensed persons aforesaid shall be entitled to have spirits issued to them, with all reasonable expedition, in such quantities as may be required, on payment of the still-head charge at the following rates, either direct to the licensee at the Distillery or Depôt of Excise or at any Depôt of Issue established under condition 9, or into a Government treasury, as may be most convenient to them:—

9. The licensee shall maintain Depôts of Excised Liquor at Masulipatam, Guntur, and Rajahmundry to facilitate the supply of spirits to the shops therein and to arrack vend farmers and to licensed renters.

10. If the licensee fails to issue spirits as specified in condition 8 within twenty-four hours (exclusive of intervening recognized holidays) after the receipt of the still-head charge, if it has been paid direct to him or after the receipt of the order from the Treasury officer for issue of spirits, if the amount has been paid into a Government treasury, he shall be liable to pay a penalty to be fixed at the discretion of the Collector at a rate not exceeding Rupees 5 per gallon of spirits not supplied for every day during which the failure continues. The penalty may be enforced by deducting the amount from any sums found due by Government to the licensee or from any deposit made by him as security for the fulfilment of his engagement. The Collector may further, in such case, purchase spirits elsewhere for supply to the aforesaid licensed persons and recover the cost thereof from the still-head charge paid direct to Government by arrack vend farmers, licensed renters and shopkeepers, and any loss of Government duty entailed by such arrangement shall be recovered from the licensee in the manner above laid down or, if necessary, under the provisions of Madras Act II of 1864.

11. The spirits issued shall be of good quality and not inferior in any way to the samples furnished by the licensee with his tender. The arrack vend farmers, licensed renters, or the shopkeepers, as the case may be, shall only be entitled to object to the quality of spirits before taking delivery, and the validity of such objection shall be decided by the Collector, or by an officer deputed by the Collector and not inferior in rank to a Deputy Collector subject to appeal to the Collector, whose decision in the matter shall in all cases be final. No objection made after delivery is taken shall be heard.

12. The materials to be used in distilling shall be of good quality, and no ingredients noxious to health shall be used in distillation or put into the spirits after they have been made.

13. The licensee shall keep true accounts of the quantity and strength of the spirits manufactured or received at, issued from, and remaining in the Distillery or Depôt of Excise. Such accounts shall be produced when required for inspection by the Collector or by any other officer appointed by him, and the licensee shall be bound to furnish such information or returns as may be required by the Collector from time to time relating to the manufacture and issue of country spirits.

14. The licensee will be at liberty to commence distilling or storing in the Depôt of Excise one month before the first day of July 1886, but no spirits so distilled or stored shall be sold or be allowed to pass out of the custody of himself or his servants before that date, unless otherwise permitted by the Collector in view to outlying depôts being supplied with spirits by the said date.

15. Every person employed by the licensee to superintend the Distillery or depôt shall, before entering upon his employment, execute the engagements prescribed by law, forms of which may be obtained from the Collector. All engagements entered into by persons to be employed by him on the 1st July 1886 shall be deposited with the Collector within one month from that date or of the date of executing the engagement.

16. If it comes to the knowledge of the licensee that any person employed by him in the prosecution of his business as the monopoly supplier of country spirits under this license commits any breach of the Abkári laws or of the engagements entered into by him, it shall be his duty to report the matter to the Collector, and to comply with the directions of the Collector respecting the continued employment of such person.

17. Accounts will be adjusted for each month within the 15th day of the month following, in order to the due distribution between Government and the licensee of the sums paid by arrack vend farmers, licensed renters and shopkeepers as still-head charge either direct to the licensee or into Government treasuries, and any sums then found due by either party to the other shall be paid at once. In default of such payment by the licensee, interest shall be payable upon all moneys due at the rate of six per cent. per annum.

18. All sums payable by the licensee may be deducted from the amount of his deposit or recovered by attachment and sale of his hypothecated or other property under any law for the time being in force for the recovery of arrears of land revenue.

19. Any sum deducted by the Collector, under the powers herein contained, from the amount deposited by the licensee as security for the due performance of the contract shall be replaced by the latter within fifteen days from the date of receipt of a notice from the Collector informing him of such deduction having been made.

20. In case of any breach of the conditions of the license either by the licensee, or, with his connivance and privity, by any person in his employment, it shall be competent to the Collector to impose upon him a fine not exceeding the sum of Rupees 50 for every breach of such conditions, or, at the option of the Collector, to declare the money deposited with him forfeited and to cancel the license. It shall be lawful for the Collector to deduct the amount of all fines imposed under this clause from the sum deposited by the licensee as security for the due performance of the conditions of the license.

21. The imposition of a fine or the forfeiture of deposit or the cancellation of the license under the last preceding condition shall not be held to prevent the prosecution of any person for any offence which may be committed against the provisions of the Madras Abkári Act, 1886, or other law for the time being in force and relating to the Abkári revenue.

22. If the licensee should be convicted, on prosecution before a Magistrate, of any offence against the Madras Abkári Act, 1886, or other law for the time being in force and relating to the Abkári revenue, it shall be lawful for the Collector to declare his license forfeited.

23. The licensee shall be bound by any additional rules which may from time to time be prescribed under the existing Abkâri law or under any law which may hereafter be enacted, and he shall cause all persons employed by him in the prosecution of his business as monopoly supplier of country spirits under this license to obey such additional rules.
